PAGE 23 ----- Combat Uniforms

Our combat uniform is meticulously engineered to provide the warfighter with extreme durability, safety, and a distinct technological edge in the field.

Our pouches built for the rigors of tactical operations, our utility pouches provide reliable and versatile storage solutions

PERSONAL PROTECTION

MediTactic seeks to protect our protectors, and provides top of the line, ruggedly designed protective gear. Our vests and tactical helmets are put through the most rigorous ballistic testing and engineering evaluations. Our products are used by various Israeli government bodies, both military and police, as well as many civilian clients.

The company is recognized as an official supplier for the Ministry of Defense, filling multiple contracts & tenders with various government entities.

The gear has passed ballistic laboratory testing in Israel at a ballistic shooting laboratory approved by the Israeli Ministry of Defense (MyWall) according to NIJ standard.

HELMETS

Product #1123

LOW CUT (MICH) BALLISTIC HELMET

Ballistic Protection: Level 3A according to NIJ 0101.06

Weight: 1.5~ kg

Material : Aramid / PE

Size : M / L / XL

The helmet comes with:

- Mount for attaching a night vision device (NVD).
- Bungee cords to secure the NVD device.
- Rails for attaching modular tactical equipment.
- Advanced pad system for extra comfort.
- Advanced adjustment system.
- A pair of Picatinny rail adapters.

Available Colors

Product #1124

MICH MID-CUT BALLISTIC HELMET

Ballistic Protection: Level 3A according to NIJ 0101.06

Weight: 1.5~ kg

Material : Aramid / PE

Size : M / L / XL

The helmet comes with:

- Mount for attaching a night vision device (NVD).
- Bungee cords to secure the NVD device.
- Rails for attaching modular tactical equipment.
- Advanced pad system for extra comfort.
- Advanced adjustment system.
- A pair of Picatinny rail adapters.

HELMET PADS

THE EXISTING PADS CAN BE REPLACED WITH THE ADVANCED D3O PADDING SYSTEM

Product #3134

HALO™ 7 BALLISTIC HELMET PAD SYSTEM

Focus on the mission-end, not the obstacles along the way. Stay safer with Halo™, the world's most advanced ballistic helmet pad system.

Product #3135

HALO™ 3 BALLISTIC HELMET LINER

The world's lightest, most comfortable, protective ballistic helmet liner. Delta Three Oscar Halo™ 3 outperforms the next best competitor across all conditions and shell sizes of the 10fps ACH standard.

- 30% lighter than the next best-in-class competitor
- Exceeds ACH blunt impact requirements (AR/PD 10-02) by 33%
- Maximum comfort via proprietary, dual density cushioning & impact resistant layer construction
- D3O-proven blunt impact performance consistency from 1st to 2nd impact
- Unmatched thermodynamic impact consistency thanks to all-new D3O® technology
- Available in one-size-fits-all 7 & 9-pad configurations
- Removal of central oblong pad in 9-pad configuration allows for comms headset wearability
- Compatible with most Aramid and PE ACH, LW-ACH, MICH, ECH, LWH-type shells
- Premium anti-bacterial treated, moisture wicking MILSPEC fabrics

- Lightest helmet liner to exceed ACH blunt impact requirements (AR/PD 10-02)
- Most comfortable liner on the market with plush, full coverage fit
- D3O-proven blunt impact performance consistency from 1st to 2nd impact
- Unmatched thermodynamic impact consistency thanks to all-new D3O® technology
- Available either in single thickness (0.75" and 1")
- 2 liner sizes (S/M/L and XL) available to accommodate all shell sizes
- Versatile, self-conforming crown pad accommodates a number of comms headset configurations
- Ventilation and moisture management via integrated air channels
- Compatible with most Aramid and PE ACH, LW-ACH, MICH, ECH, LWH-type shells
- Premium anti-bacterial treated, moisture wicking MILSPEC fabrics

ANTI RIOT

Product #1127

ANTI RIOT HELMET WITH VISOR

Features:

Material: ABS Shell + PC Visor

Weight: 1.6 kg

Size: One size

specifications:

- The innovative design provides Generous head-space and allows for maximum mobility.
- -The Riot Control Helmet Provides Head, forehead and face protection.
- Neck protector included for additional neck protection.
- Anti-impact and bearable anti-penetrative ability.
- Vibration proof.
- Adjustable, Visor drops to below chin-level.
- Black finish with Color-fastness and Scratch resistant surface qualities.
- High transparency fog-resistant visor
- The helmet comply with GA 294-2001 STD (Tested by ISO/IEC 17025 certificated lab)

ARMOR PLATES

Product #1223

PROTECTION PLATE LEVEL 4 (IV)

Ballistic Protection: Level IV protection, according to NIJ standard (0101.06)

The protection plate has been tested against armor-piercing bullets (7.62×63 AP M2)

Features:

Weight: 2.4 kg (5.3 lbs)

Height: 30 cm (11.8 in)

Width: 25 cm (9.8 in)

Material: Alumina + PE

STA

SAPI

* **SAPI XL size** (28*35cm) available for this protection level.

* **Side plates** (15*15 cm & 20*15 cm) available for this protection level.

Product #1224

PROTECTION PLATE LEVEL 3+ (III+) - ULW

Ballistic Protection: Level III+ protection, according to NIJ standard (0101.06)
The protection plate has been tested 5.56 (5.56X45 FMJ M193) and
7.62 (7.62×39 MSC M43).

Features:

Weight: 1.09 kg (2.40 lbs) ~

Height: 30 cm (11.8 in)

Width: 25 cm (9.8 in)

Material: UHMWPE

STA

SAPI

Multi Curve

Ultra Light Weight

Dramatically reduced weight for this category of 3+ protective armor.

This product is designed and produced in Israel.

* SAPI XL size (28*35cm) available for this protection level.

* SAPI side plates (15*15 cm & 20*15 cm) available for this protection level.

PROTECTIVE VESTS

Product #1323

PROTECTIVE VEST - YARDEN MODEL

Ballistic Protection: Level 3A protection, according to NIJ standard (0101.06)

Lightweight: Less than 2 kg including the flexible layers panel.

Comfort: Adjustable straps for optimal fit and breathable materials.

Modularity: Molle system for attaching accessories and tactical gear to the front and back of the vest.

Additional protection: Dedicated front and rear compartments for adding armor plates for extra protection (OPTIONALLY).

Fabric: Cordura 500D

Size : S / M / L / XL

Available Colors

Product #1324

CONCEALED VEST - BUSINESS MODEL

Ballistic Protection: Level 3A protection, according to NIJ standard (0101.06)

Lightweight: Less than 2 kg including the flexible layers panel.

Concealed: The vest can be inconspicuously worn under clothing without drawing attention.

Comfort: Adjustable straps for optimal fit and breathable materials.

Fabric: Nylon / cotton

Size: S / M / L / XL

Available Colors

INFANTRY COMBAT VEST - GIDEON MODEL

- The GIDEON combat vest is meticulously designed to provide combat soldiers with maximal efficiency in the field.
- This modular combat vest is made with especially durable nylon 1000D, including a quick-release system for easy and quick detachment.
- The magazine pouches are designed for M-16/M4 or Kalachnikov 7.62 magazines (depending on client preference), as well as pistol magazines and other gear.
- The vest's Molle system allows for modular, self-tailored and easily detachable pouch set-up, depending on user preference.
- A breathable netting within the support system allows for sweat wicking and comfortable wear over hours of intense activity.
- The vest includes dedicated pockets for SAPI ballistic protection sized 25X30 CM.

Product #2124

EXPLORER MODEL - MED-KIT**The leading choice for civilian emergency medical teams.**

The Explorer Model Med-Kit is engineered as the premier solution for civilian emergency medical teams and field medics. It delivers rapid deployment capabilities and efficient compartment organization for effective medical response across diverse operational environments. This bag is ideally suited for first responders, medics, paramedics rapid response teams, and local authorities.

Designed with ample capacity and optimized organization, the bag accommodates all essential medical equipment for trip escorts and field operations. Its increased volume and modular compartments ensure convenient arrangement and immediate access to critical items.

Key Features:

- **Modular Compartmentation:** Features three removable internal compartments, enabling rapid access to specific equipment without deploying the entire bag.
- **Ultra-Lightweight Design:** Weighing less than 1.4 kg, enhancing portability and reducing user fatigue.
- **Optimized Storage:** Includes increased volume with a dedicated, hidden compartment for an adjustable cervical collar, and a dedicated hydration bladder compartment with an outlet for a drinking tube.
- **Expandable Capacity:** Equipped with a modular attachment system for expanding bag volume as operational needs dictate.
- **Enhanced Comfort:** An orthopedic back system combined with chest and hip straps provides maximum comfort during prolonged carrying.
- **Versatile Application:** This specialized bag is particularly suitable for trip escorts in educational institutions' outdoor activities, field operations, and for medical professionals requiring reliable equipment in challenging conditions.

Specifications:

Weight: 1.4 kg ~

Height: 60 cm

Width: 35 cm

Volume: 44 liter

Material: polyester

Product #2125

TRAUMA - KIT

A must have item for any operator in the field.

This kit has the necessary essentials for rapid lifesaving and first response efforts in any event of casualties.

The MediTactic Trauma Kit has all the basic life-saving essentials for initial care in cases of injury.

Utility: the trauma kit can be fastened to any molle system, Velcro or thigh strap.

Making our clients choose to add this product as an add-on to the Titan II

Alternatively, the kit can remain as a stand-alone piece in any car, panic room or shelter

Contents include:

- 1 unit - Trauma Bandage
- 1 unit - Tactical tourniquet
- 1 unit - Burn-care bandage
- 5 units - Flexible bandage wrapping
- 1 unit - Orthopedic triangular bandage
- 1 unit - Medical tape
- 20 units - Alcohol pads
- 1 unit - Yellow/green sticklight
- 5 units - Sterile gauze bandage
- 1 unit - Medical tweezer
- 1 unit - Emergency blanket (silver/gold colored)
- 1 unit - Medical shears
- 20 units - band-aids

* Contents can be tailored based on client preferences.

STRETCHER

Product #2126

TACTICAL STRETCHER

Vacuum-sealed

In what has become a game-changer in urban warfare - this highly maneuverable and versatile stretcher allows the rapid extraction of injured operators from complex and narrow structures and alleyways.

The stretcher is extremely popular among the Israeli Defense Force Spec-Ops units.

- Weighing **just 313 grams (11.04 ounces)**, it's the lightest in its class.
- Fits easily into magazine pouches for maximum portability.
- carries **up to 250 kg (550 pounds)**, making it suitable for various scenarios.
- Quick and easy to deploy and fold, even in the most challenging conditions.
- Durable and reusable, designed to meet the rigorous demands of military use.
- Trusted by the US military and armed forces worldwide.
- The stretcher arrives sealed in a vacuum-sealed, waterproof and dustproof package. The stretcher is intended for reuse.

TACTICAL ACCESSORIES

Built for the rigors of tactical operations, our utility pouches provide reliable and versatile storage solutions. We offer a comprehensive selection of MOLLE-compatible pouches, including single, double, and triple magazine configurations for general purpose and accessory use, along with dedicated first aid and medical/EMT pouches. Our pouches are designed to integrate seamlessly with MOLLE vests, backpacks, and other tactical gear, ensuring critical equipment is readily accessible when needed.

The combat uniform is meticulously engineered to provide the warfighter with extreme durability, safety, and a distinct technological edge in the field.

Product #4121

FORTRESS COMBAT UNIFORM

NO MELT
NO DRIP

NIR COMPLIANT

Teflon

YKK

The FORTRESS combat uniform is meticulously engineered to provide the warfighter with extreme durability, safety, and a distinct technological edge in the field.

- Advanced Fabric Technology: Integrated IR (Infrared) blocking technology reduces heat signature to prevent detection by thermal devices, combined with water-repellent properties for superior all-weather performance.
- Fire Safety (No Melt, No Drip): The fabric is designed to resist melting or dripping when exposed to extreme heat or flash fire, a critical safety feature for high-risk combat environments.
- Durability & Ventilation: Features reinforced high-friction areas (such as elbows) for abrasion resistance, alongside breathable fabric that ensures efficient sweat wicking and airflow during intense activity.

Combat Pants Specifications:

- Dedicated built-in pockets for knee pad integration.
- Dual adjustment straps (knee and cuff) and an integrated elastic waistband for a secure, operational fit.
- Extensive storage configuration including 2 lower pockets, 6 upper internal pockets, and 2 rear pockets.
- Widened, reinforced belt loops designed to support heavy-duty combat belts.

Combat Shirt Specifications:

- Ergonomic 'Active Cut' design ensures full, unrestricted range of motion.
- Zippered standing collar for neck protection and rapid ventilation.
- Features sleeve pockets for accessible storage.
- Features Velcro panels for patch attachment.

SWIFT TACTICAL WEAPON SLING

500D CORDURA

QUICK ADJUST

QD & HK INCLUDED

LASER-CUT MOLLE

Operating a weapon under heavy load demands a solution that simply works. The SWIFT tactical sling is engineered specifically for this critical edge, enabling an immediate, split-second transition from prolonged carry to a combat-ready stance.

-Rapid One-Handed Adjustment: At the heart of the system is a heavy-duty metal buckle with an ergonomic pull-tab, allowing effortless single-handed shortening and lengthening of the sling so you never lose sight of your target.

-Extreme Durability & Comfort: Built to survive abrasive, high-wear operations, the sling is crafted from rugged 500D Cordura wrapped in active mesh padding—designed to prevent chafing, wick away sweat, and distribute weapon weight evenly.

-Mission-Ready Operational Kit: Instead of requiring separate adapter purchases, the SWIFT arrives ready for action with dual 360° Quick Detach (QD) swivels, a pair of steel HK snap hooks for classic mounting, and integrated laser-cut slots on the padding for gear attachment—keeping you sharp, mobile, and in total control

Features & Compatibility:

- Complete operational kit including 2 Quick Detach (360° QD) swivels + 2 steel snap hooks (HK)
- Dedicated front utility pouch for storing earplugs.
- Fully compatible with M4/AR15 carbines and all standard long guns.

Construction & Materials:

- Rugged 500D Cordura construction with internal mesh padding for efficient sweat-wicking under heavy load.
- Hardened metal buckle featuring an ergonomic pull-tab for rapid, single-handed adjustment.
- Integrated laser-cut slots on the padding for securing communication cables and accessories.
